ABOUT ME

I am a dynamic first-year engineering student with a background in full-stack development. I successfully completed a bootcamp that specialized in the MERN stack and Tailwind CSS. During an internship, I gained practical experience and honed Git and programming language skills, including JavaScript, Java, and PHP. I'm passionate about using my technical expertise to contribute to innovative projects and am committed to continuous learning and professional progression in the field of engineering.

WORK EXPERIENCE

BIOMEDIQA-Tunisie

City: Kairouan | **Country**: Tunisia

[19/06/2023 – 28/07/2023]

Summer internship

During my internship, I had the privilege of working with a dynamic team of developers, where I actively worked on the Git server and conducted in-depth research on various topics. I also had the opportunity to give numerous presentations based on the courses I took, covering key topics such as Linux CLI, Git, Git workflows and Clean Code.

- I successfully implemented Gitea, a self-hosted Git service, on a server, streamlining version control and improving code management within the team.

- I benefited from mentoring and advice from experienced developers, which contributed significantly to my personal and professional development

EDUCATION AND TRAINING

[09/2022 – Current]

Software Engineering

EPI - École pluridisciplinaire internationale episup.com

City: Souuse | **Country**: Tunisia |

SKILLS

Hard Skills

NodeJS, ExpressJS, ReactJS | Tailwind CSS | Base de données: MongoDB | Figma | Git /Gitlab/Github

Soft Skills

Bonne capacité d'écoute et de communication | Travail en groupe | capacités d'organisation et de planification | Compétences écrites et verbales

CERTIFICATIONS

[05/2025]

CCNA: Switching, Routing, and Wireless Essentials

PUBLICATIONS

[2023] **[Understanding Git and Different Workflow Types](#)**

Following my internship, after numerous presentations, the project manager told me to share summaries, which I did, and here I am writing one on GIT and Workflow.

CONFERENCES AND SEMINARS

[2024] **BMC training**

Organized by **ATAST SS**

Project Management Workshop

Organized by **Club IEEE EPI, chapitre IAS**

Python for Beginners Workshop

Organized by **Club IEEE EPI, chapitre IAS** of 3 days

SOCIAL AND POLITICAL ACTIVITIES

[11/05/2025] **EPI ROBOTS DAY 4.0**

I produced several visuals and publications for the event page. I also designed managed relations with sponsors, and contributed to the general organization.

[03/2025] **Compétition B-TECH**

I was responsible for the creation of the technical report, the development of a presentation and the elaboration of the idea for the competition.

[03/2025] **Ideathon**

I was responsible for designing the user interface and the BMC.

- [05/12/2024 – 06/12/2024] **Nuit de l'info**
- I took part in the “Nuit de l'info” competition for the first time. My group was made up of second-year students, and I chose the “Bad UI challenge”.
- Link:** bad-ui-nuit.vercel.app
- [30/11/2024 – 01/12/2024] **ATAST CYBERBENDERS AI CHALLENGE**
- I was responsible for the production of all event-related messages and the design and production of all event posters prior to the launch of the competition. I also played a role in the organization of the 12-hour competition.
- [23/11/2024 – 24/11/2024] **Participation in Hackathon**
- My first experience of a hackathon was the ATAST Cyberbenders AI Challenge, organized by ATAST Club EPI and ISITCOM. For 12 hours, I took part in the competition
- [09/2024] **Designer and Community Manager** EPI
- Member of the ATAST EPI club executive committee
- [21/03/2024 – 23/03/2024] **Compétition B-TECH**
- I was responsible for creating a Business Model Canvas (BMC) for the competition, as well as providing assistance with the development of a presentation.
- [24/02/2024 – 25/02/2024] **EPI Robots Day 3.0**
- As a member of the organization and a designer, I was actively involved in various tasks related to this tournament. These tasks included the development of promotional material such as the use of Figma, the construction of the model structure, event management and participant control on the day of the competition.
